Commissioner, Deputies, Regional Commanders, Chris etc.

Please find the HENDON report for today's date. The report has been divided into three areas of focus: Ottawa, Toronto and tertiary areas of concern.

POIB has entered joint planning with TPS and other clients regarding intelligence collection and information flow for pending events. We will be present in their Incident Command. POIB will also have covert operations on ground to collect information and intelligence.

There simply is not a great deal of concrete planning in relation to Toronto events this weekend. There are several groups arranging transport to this event - see the appendix. There is a great deal of discussion among a wide array of interest groups who share an opposition to governmental policy and a willingness to display it.

A common intelligence picture will evolve as planning is solidified. A meeting is scheduled with TPS in the am to be followed by a HENDON meeting at 1100 hrs.

Pat
